

GROUPE CONSULTATIF ACTUARIEL EUROPEEN

SUMMER SCHOOL 2010 SAMOS, 30 June – 2 July

On the island of Pythagoras

**Organized by the Hellenic Actuarial Society
in cooperation with the University of the Aegean – Department of Statistics and
Actuarial – Financial Mathematics**

ENTERPRISE RISK MANAGEMENT FOR ACTUARIES

In the context of **C**ontinuing **P**rofessional **D**evelopment, the Group Consultatif Summer Schools contribute to the extended actuaries' knowledge on a specified subject.

The aim of the Enterprise Risk Management for Actuaries subject is to provide the key principles underlying the implementation and application of ERM within an insurance company including both process and quantitative methods of risk measurement and modeling.

Among others, this summer school will in particular deal with the following:

- Framework of risk management and control within a company
- ERM process / risk categories and classifications
- Risk Measurement and Assessment
- Risk Management Tools and Techniques
